

D.T.2.2.2 REGIONAL WORKSHOP

D.T.2.2.2 Report - Regional workshop
VDC Fellbach

Version 1
10 2020

1. Name of the event, implementing date and place

DE: XR in Industry LIVE - Virtual & Mixed Reality Anwendungen im industriellen Umfeld

EN: XR in Industry LIVE - Virtual & Mixed Reality applications in an industrial environment

13th of July 2021 - 4:30pm to 7:00pm, Virtual Dimension Center Fellbach - Auberlenstr. 13, 70736 Fellbach

2. Number and types of participants/target groups

The workshop had 11 participants. In cooperation with the “CODE_n” de:hub (we as VDC are a founding member). Addressed at small and medium sized industrial businesses (Industry in general, workers, job seekers, production and manufacturing planners) to develop an understanding of the benefits of V/AR technology and how it is used in the industry/practice.

3. Topics tackled and links to deliverables, outputs

- Welcome and introduction to the topic
- Best Case Presentation (VR-Uptale) with questions & answers
- Best Case Presentation (AR-CDM-Tech) with questions & answers
- Tour to VDC’s demonstrator stations: Powerwall, digital twin, AR maintenance, XR design / Trying out the demonstrators by participants with questions & answers
- Final exchange and networking (buffet, snacks and drinks)

4. Expected effects and follow up

We expect positive effects on our de:hub partnership (VDC & code_n) like:

- Increased cooperation and collaboration with the industry.
- Networking with participants out of business and industry
- Helping to develop a basic understanding of the benefits of V/AR in the industry
- Tests of our new demonstrators and services for our HUB
- Raising awareness of our HUB in cooperation with de:Hub code_n and test our new services

Developing a basic understanding of the benefits of V/AR technology and how it is used in practice. Participants got an overview of industrial V/AR use cases. They learned how the technology works and experienced the showed use cases by themselves.
