The children's workshop was organized by the Croatian Geological Survey, i.e. the Department of Hydrogeology and Engineering Geology in order to promote the EU Interreg project titled PROLINE-CE. The workshop was held in Zagreb in the elementary school Rudeš. The team leader Josip Terzić gave the introductory words. La La Land trade was commissioned to organize a creative workshop to engage the students in an interactive task and talk about water management, land use and flood mitigation. The following printscreens are from the official public Facebook page of the La La Land Company.
