

## RIS3 Round Tables

The RIS3 Round Tables were designed and implemented with the intention to foster the implementation of the consortium's Regional RIS3 Alignment Instrument Pilot Project Flagships ("Flagships"). The RIS3 Round Table had a goal of optimizing CAMI4.0 policy engagement between Central European (and wider EU) regions, by identifying and upgrading the consortium's chosen Use Cases to Flagships.

## Number of participants on RIS3 Round Tables

## Results in numbers

- 40 use cases defined
- 20 flagship projects
- 4 common policy use cases
- 100 letter of commitments

## T3 - Promote!

The main goal of the third and final work package was to bring together and combine all the inputs created through the first two work packages and to bring CEUP 2030 to a close. The focus was on interacting with various stakeholders around the CEUP 2030 CAMI 4.0 topics. Local, regional and national public authorities, SMEs, large enterprises, research institutions and business support organizations, all of them were included and interacted with.

### Facts and Figures about the workpackage

- 4 activities
- 12 deliverables
- 2 outputs

Leader of the work package

 **INDUSTRIE 4.0**  
AUSTRIA
