## D.T4.1.6

---

Transnational industrial innovation roadmap WS for  
the Biomedical sector

---

Version 1  
11.2020

<b>Project information</b>	
Project Index Number:	CE1519
Project Acronym:	CHAIN REACTIONS
Project Title:	Driving smart industrial growth through value chain innovation
Website:	<a href="https://www.interreg-central.eu/Content.Node/CHAIN-REACTIONS.html">https://www.interreg-central.eu/Content.Node/CHAIN-REACTIONS.html</a>
Start Date of the Project:	01.04.2019
Duration:	36 Months
<b>Document Control page</b>	
Deliverable Title:	D.T4.1.6 Transnational industrial innovation roadmaps WS for the BIOMEDICAL sector
Lead Contractor of the Deliverable:	PP2 – Styrian Technology Park
Responsible PP duo:	PP3 – Chamber of Commerce of Padova PP11 – GAPR - Upper Silesian Agency for Entrepreneurship and development
Authors:	- GAPR-s' team - CCIAA PD's team
Contractual Delivery Date:	30.09.2020 – 31.03.2022
Actual Delivery Date:	31/01/2022

	Annex: TRANSNATIONAL INDUSTRIAL INNOVATION ROADMAP.....	4

## 1 INTRODUCTION

Following the regional IGAs' actions of the support and implementation of transnational pilots aiming at supporting value chain innovation (WPT3) and establishment of transnational networks of innovations stakeholders as the kick-off activity to develop transregional innovation networks and agendas (WPT4) in selected industrial sectors (WPT4), the main activity of the sectoral partner duo is to contribute to the project output O.T4.1 Thematic industrial innovation roadmaps (TIIR).

For the purposes of TIIR development of the biomedical sector two (2) transnational industrial innovation roadmap workshops will be implemented, with the main objective to collect relevant inputs for elaboration of TIIR and later on the transnational industrial innovation agenda for the target sector, in order to perform a foresight exercise and identify relevant sectoral trends and to present the possible evolution paths of the considered value chains and innovations within the target sector over a period of 5-10 years.

## 2 WORKSHOP SUMMARY

Ref.:	<input type="checkbox"/>	Meeting / workshop	<input type="checkbox"/>	WPT2
	<input checked="" type="checkbox"/>	Online meeting / workshop	<input checked="" type="checkbox"/>	WPT3
	<input type="checkbox"/>	Other	<input type="checkbox"/>	WPT4
Date:	12.07.2021 and 08/11/02021			
Place:	Online conference call – GOOGLE PLATFORM			
Attachments:	HAVE BEEN NOT SAVED			

### 2.1 Agenda

PP3 and PP11 met to discuss collaboration, analysis trends and technological solutions and harmonize implementation plans.

The agenda of the workshop 1 is as follows:

1. Short introduction of the WS purpose (5 minutes)
2. Identification of relevant sectoral trends (15 minutes)
3. Identification of main actions to be included into the roadmap (30 minutes)
4. Discussion and exchange of information on the draft regional plans for the next 5-10 years (30 minutes)
5. Next steps (10 minutes)

The agenda of the workshop 2 is as follows:

1. Presentation of adjusted contents and actions for the roadmap (30 minutes)
2. Elaboration of draft Transnational Industrial Innovation Roadmap (30 minutes)
3. Discussion and exchange of information on further steps (15 minutes)
4. Presentation of results and conclusions of the workshops (15 minutes)

## 2.2 Participants

PP no.	Name of organisation	Name of person, position
PP3	CCIAAPD	Roberto Sandrini
PP3	CCIAAPD	Andrea Galeota
PP3	CCIAAPD	Elena Tognon
PP3	CCIAAPD	Sabrina Giralдин
PP11	GAPR	Artur Ochoiskj
PP11	GAPR	Izabela Czeremcha

## 2.3 Summary of discussions

Partner duos should summarize the outcomes of the workshops, including the definition and description of the draft innovative actions to be included into the transnational industrial innovation roadmap of the target sector. By defining the innovation actions mind the sectoral regional, national and international trends, target markets, leading technologies, production capabilities, projects and measures (i.e. marketing, HRD, know-how transfer, etc.), as well as results of value chain innovation analyses and transnational pilots.]

PP	Suggested innovation action	Description	Timeframe	
			From	To
	Organization of a bilateral thematic workshop for SMEs	Thematic workshop on robotics offered to SMEs from biomedical sector or interested to this industrial sector	01/09/2021	31/10/2021
	Organization of a bilateral meeting between Biomedical Observeratories	Meeting to discuss future collaboration	01/09/2021	31/12/2021
	Organization of 1 study visit in Italy	Visiting SМАCT Center premises and robotics equipments	01/10/2021	31/01/2022

## 2.4 Next steps

Organize further transnational cooperation meetings.

## CHAIN REACTIONS

---

Organize one bilateral workshop for SMEs and Innovator

Organize 1 study visit in Italy

Create relationships between Italian and Polish Biomedical Observatory
