

## PROJECT

Development of an integrated concept for the deployment of innovative technologies and services allowing independent living of frail elderly.

The **niCE-life** project will foster social inclusion and care coordination of the elderly with cognitive medium-low deficits, including Alzheimer's and Parkinson's diseases and other chronic diseases. It will develop an innovative health care model by using progressive technologies such as sensor technologies, ICT and data analysis techniques, preventing frailty of the elderly, enhancing their quality of care and supporting independent living, social contacts and assistance after hospital discharges.

Interreg CENTRAL EUROPE Programme

Priority 1: Cooperating on innovation to make CENTRAL EUROPE more competitive

Specific objective: Improving skills and entrepreneurial competences for advancing economic and social innovation in Central European regions

Project outputs: 36 outputs including 7 strategies and action plans

Project duration: 1.7.2019 - 30.06.2022

Project total budget: 2 117 580,95 €

Together with targeted trainings and local action plans the project will contribute to strengthening capacities and competencies of public authorities and health and care providers to efficiently address pressing social challenges and foster independent living of the elderly.

## PROJECT PARTNERS

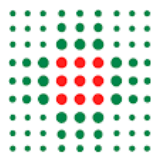

The niCE-life project is implemented in cooperation with **10 project partners** from six countries: Bratislava-Petržalka municipal district (Slovakia), Brno University of Technology (Czech Republic), University Hospital Olomouc (Czech Republic), Slovak University of Technology in Bratislava (Slovakia), Lepida (Italy), Local Health Authority of Bologna (Italy), Institute for Elderly Care and Shelter in Treviso (Italy), Samaritan Burgenland (Austria), the City of Warsaw (Poland) and the National Institute of Public Health in Ljubljana (Slovenia) .

## PROJECT KICK-OFF MEETING

The Kick-off meeting of the niCE-life project was held in Bratislava (Slovakia) on January 22-23, 2020, hosted by the lead partner Bratislava-Petržalka (Slovakia) on the premises of the Slovak University of Technology in Bratislava.

During the event all partners introduced themselves, presenting their expertise and activities, and discussed the project's detailed timetable and its upcoming implementation phases. The CE Joint Secretariat representative was also present, discussing general issues of project implementation and reporting.

We met together not only to discuss basic points of the project, but also to get to know each other, **TAKING COOPERATION FORWARD**.
