ENERGY@SCHOOL ON AIR

The last ENERGY@SCHOOL school year has already begun. We are facing new challenges and final events. Keep up with ENERGY@SCHOOL news!

ENERGY@SCHOOL at EURegions Week in Brussels, Belgium

ENERGY@SCHOOL was one of 6000+ participants, 300+ partners and 30 Master Class participants who made this year's #EURegionsWeek so successful and impactful. This 16th edition which was held 8-11 October 2018 in Brussels, was full of energy and creativity. The 140+ regions and cities have shown their determination to influence the debates on future challenges; and to call for a strong cohesion policy.

Smart meters installation - continuation report

This time next part of smart meters system installation. We remind that Project Partners have already installed smart meters devices in involved schools. They assist school staff and students in every day energy monitoring and helps encourage them to save energy also in their houses. Look at the 2nd photo report.
