

Pilot action 1

POLAND

- Lower Silesia (dolnoslaskie region)

Balanced and sustained management of mineral waters in Lower Silesia

Coordinator of pilot action:
Institute for Territorial Development

Partner of pilot action:
Central Mining Institute

Background

Dolnoslaskie (Lower Silesia) Region is the Polish region with the largest number of health resorts (11 out of 45 in the country).

Due to unique landscape values and rich resources of healing mineral and thermal waters, SPAs and tourism development is crucial for the growth of the region. That is why the right approach to SPA activities need to pay a special attention to natural resources protection.

Main aim

to create a joint Action Plan for the 11 existing spas of the region, containing general and specific recommendations for their development
