

Towards the Integrated Environmental Land Management in Central Europe

LUMAT Final Conference

TRAVEL KIT

Katowice | Ruda Śląska 15th - 16th April 2019

Katowice

Katowice is a fairly young city in the South of Poland. It is one of the most developed business centres in the country, with a significant share of industrial activity. It is the capital of the Silesian Voivodship, and from 1st July 2017 - the largest city of the Upper Silesia and Zagłębie Metropolis, integrating 41 cities and municipalities, populated by more than 2 million people. Revitalization of the former coal mining area enabled the establishment of the Culture Zone - a unique space on the national scale.

Culture Zone

The MCK, the Spodek Sports and Entertainment Arena, the Polish National Radio Symphony Orchestra and the Silesian Museum, together form the Culture Zone in Katowice. The area is located on the premises of the former Katowice Coal Mine, which was active up to the 1990s. The revitalization of this space, situated right at the very heart of town, has been truly amazing. In a matter of a dozen years or so, a heavy industrial plant has morphed into a meetings industry venue, and, thanks to the buildings of the Culture Zone, business tourism in Katowice has experienced really dynamic growth.

Place and venue of the Conference
