KETGATE

KETGATE Points Network

Your transnational GATE
to Key Enabling Technologies
in Central Europe

Key Enabling Technologies KETs

KETs are a group of six technologies, which are drivers of innovation in all industrial sectors:

KETs can help your company to improve its products, to open new markets and to increase your competitiveness.

Project KETGATE

Our mission is to increase the innovation capacity and competitiveness of small and medium-sized enterprises (SMEs) in Central Europe. Therefore, KETGATE aims to facilitate the transnational cooperation between SMEs and Research and Technology Organisations (RTOs) and to improve the access of KETs for SMEs in this region.

KETGATE Points

Regional KETGATE Points have been established in eight countries of Central Europe. KETGATE Points offer you personalised services to guide you through your innovation projects.

**Your KETGATE Point is at your doorstep!

KETGATE Points

Services for Small and Medium-sized Enterprises

KETGATE provides you quick and easy access to a network of dozens of experts bringing you innovative technological solutions for your specific needs. We offer you support by:

EVALUATING THE INNOVATION CAPACITY OF YOUR COMPANY

We assess your innovation capacity and provide advice how to improve your innovation strategy.

PROVIDING YOU INFORMATION ON RTO SERVICES

We provide you with targeted information on the latest developments of RTOs, innovation success stories and tailor-made services fitting your needs.

FACILITATING YOUR COOPERATION WITH RTOs

We connect you with the best available RTO(s) within our transnational network for your specific need.

PROVIDING YOU SERVICES TO BRING YOUR IDEA TO THE MARKET

We offer you complete technological and financial solutions in cooperation with RTO(s) to bring innovative ideas to the market.

Services for Research and Technology Organisations

KETGATE helps you acquire industrial clients by promoting your expertise and connecting you with SMEs across Europe. We support you by:

PROMOTING YOUR LATEST DEVELOPMENTS AND SERVICES

We promote your expertise, latest developments and services to all SMEs in the KETGATE Network.

STRENGTHENING YOUR COOPERATION WITH OTHER RTOS ACROSS EUROPE

We assist you on building sustainable relationships with other RTOs offering complementary services, so you are able to provide even better services to your industrial clients.

CONNECTING YOU WITH SMEs ACROSS EUROPE

We support you identifying the needs of SMEs across Europe and connect you with them.

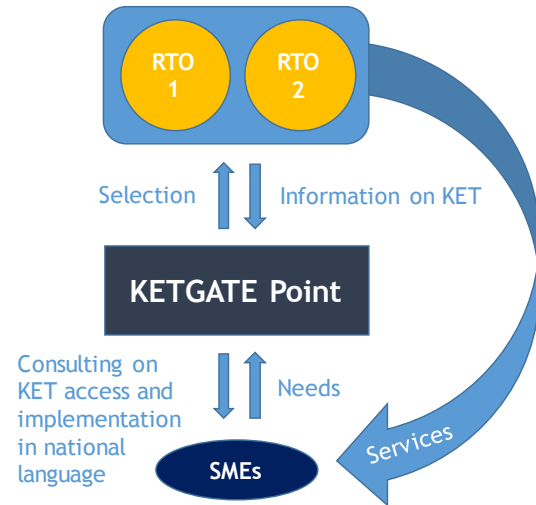

PROVIDING YOU INFORMATION ON FUNDING SCHEMES

We provide you with information and contacts to different funding schemes (public and private) to further develop your ideas and bring them to the market.

How does it work?

1. SME contacts its regional KETGATE Business Advisor in its national language.
2. KETGATE transmits the SME's request to appropriate RTOs in the KETGATE Network.
3. RTOs in the KETGATE Network present offers with a precise solution.
4. SME chooses the best offer according to its needs and signs a contract with the RTO.
5. Innovation project starts.

What is the added value of KETGATE for your company?

Improvement of your products and services using innovation and key enabling technologies

Solutions to for technological challenges

Tailor-made services on cooperation between SMEs and RTOs in your national language

Increased contacts and collaborative opportunities with other organizations in Central Europe

Always being up-to-date on funding and business opportunities
