

- CAPACITY BUILDING WORKSHOP BUDAPEST, 29 October, 2019
- Individual Regional Baseline Report on Low Carbon Investments Funding
 - Southern Great Plain Region
- PROSPECT2030 | AACM Central Europe | Károly Oelberg

Introduction

Types of Funding

Decentralised
Funding in
Hungary Operational
Programmes

Other EU initiatives

Joint EU/IFI initiatives

National initiatives

Cooperation with private stakeholders

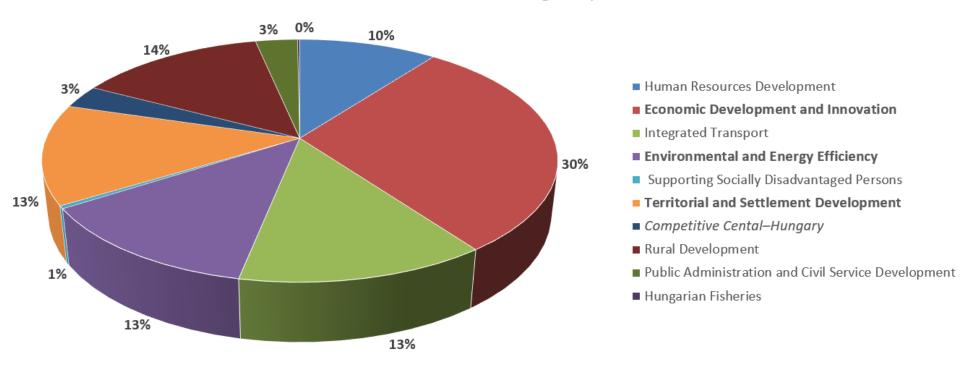

Types of investments funding

- Decentralised funds made available from the ESI Funds
- EU low-carbon initiatives
- 3. EU low-carbon initiatives in collaboration with IFIs
- 4. National funding schemes
- 5. Cooperation with private stakeholders

Decentralised EU funds in Hungary

Total budget: 29 730 million EUR

Relevant OP budget: 16 569 million EUR

Relevant PA budget: 2 744 million EUR

Total EU fund: 25 013 million EUR

Relevant OP EU funding: 14 341 million EUR

Relevant PA EU funding: 2 389 million EUR

Economic Development and Innovation OP

PRIORITY AXES:

- Priority axis 1: Increasing the competitiveness and productivity of SMEs
- Priority axis 2: Research, technological development and innovation
- Priority axis 3: Info-communication developments
- Priority axis 4: Energy
- Priority axis 5: Employment
- Priority axis 6: Competitive labour force
- Priority axis 7: Tourism
- Priority axis 8: Financial instruments

Economic Development and Innovation OP

| Priority axis 4: Energy | • | | | | |
|---|---|---|-----------------------------|--|--|
| | | | | | |
| Specific objectives: | Strengthening the competitiveness of the business sector through decreasing | | | | |
| | the direct energy costs by energy efficiency and renewable investments | | | | |
| | | | | | |
| Final beneficiaries: | SMEs in convergence (less developed) regions | | | | |
| | Fotal budget: | € 225 555 211 | | | |
| | EU funding: | € 191 721 929 | | | |
| | Ratio of national contribution: | 15% | | | |
| | Overall budget breakdown: | | | | |
| information: | - solar energy (20.1% of the total budget) | | | | |
| | - biomass (10.1% of the total | | | | |
| | _ | thermal, small hydropower, he | at pumps and utilisation of | | |
| | waste heat (3.3% of the total | | | | |
| | | able investments in the econom | ic/production processes of | | |
| | SMEs (66.5% of the total bu | aget) | | | |
| , | ivnacted number of enterprises re | cairing support: 1400 | | | |
| | Expected number of enterprises receiving support: 1400 Form of assistance: (non-repayable grant) | | | | |
| ' | offit of assistance. (non-repayabl | e grant) | | | |
| Priority axis 8: Develop | ment of financial instruments a | nd services | | | |
| Specific objectives: | | limited access to financial resor | irces through the | | |
| | improvement of access to finance in the energy/low carbon area | | | | |
| | Energy efficiency refurbishment of buildings and district heating system, and increase | | | | |
| | | | | | |
| | of the share of renewables | ent of buildings and district ne | ating system, and increase | | |
| Final beneficiaries: | of the share of renewables Enterprises with no or limite | | ating system, and increase | | |
| | | | ating system, and increase | | |
| Available budget: | Enterprises with no or limite | 1 access to finance. | ating system, and increase | | |
| Available budget: | Enterprises with no or limite Total budget: | 1 access to finance. € 567 196 540 | ating system, and increase | | |
| Available budget: | Enterprises with no or limite Fotal budget: Funding: | d access to finance. € 567 196 540 € 538 836 713 5% | | | |
| Available budget: | Enterprises with no or limite Fotal budget: EU funding: Ratio of national contribution: Implementation target - support to 1 000 SMEs supported | 1 access to finance. € 567 196 540 € 538 836 713 5% SMEs with no or limited access | ss to financial resources | | |

PA 4 budget: 225 555 221 EUR

PA 4 EU funding: 191 721 929 EUR

PA 8 budget: 567 196 540 EUR

PA 8 EU funding: 538 836 713 EUR

Environmental and Energy Efficiency OP

PRIORITY AXES:

- Priority axis 1: Adaptation to climate change impacts
- Priority axis 2: Development of water supply, wastewater disposal and treatment, development wastewater management
- Priority axis 3: Waste management and environmental remediation related developments
- Priority axis 4: Nature protection and wildlife protection related developments
- Priority axis 5: Promoting energy efficiency and the use of renewable energies
- Priority axis 6: Technical assistance

Environmental and Energy Efficiency OP

| Priority axis 5: Prom | oting energy efficiency and the us | e of renewable energies | | | |
|-----------------------|--|--|--|--|--|
| Specific objectives: | Non-building related, on-grid green electricity production based on renewable | | | | |
| | resources | | | | |
| | | nent of buildings combining with renewables | | | |
| | Development district heating supply and distribution systems and their conversion to | | | | |
| | renewable fuel | | | | |
| | Public awareness raising activities | | | | |
| Final beneficiaries: | Business organisations | | | | |
| | | semi-statal institutions and companies, churches, | | | |
| | municipalities (in developed | | | | |
| | District heating suppliers and distribution companies NGOs, churches, municipalities, training institutions, state organisations | | | | |
| Available budget: | Total budget: | € 994 820 180 | | | |
| Available budget. | EU funding: | € 845 597 152 | | | |
| | Ratio of national contribution: | 15% | | | |
| Other key | | reen electricity production include: use of biomass, | | | |
| information: | | d energy, hydropower and energy storage and other grid | | | |
| miormation. | elements supporting the grid cont | | | | |
| | cienteits supporting the grid cont | 101. | | | |
| | Energy efficiency refurbishmen | t of buildings combining with renewables: the targets | | | |
| | | ned and municipal and other public buildings. | | | |
| | Development district heating su | pply and distribution systems and their conversion to | | | |
| | renewable fuel: the component targets the primary side of district heating systems (heat | | | | |
| | generation installations and distribution networks. | | | | |
| | Regional distribution of EU funding: | | | | |
| | | | | | |
| | less developed regions: € 718 757 579 | | | | |
| | more developed regions € 126 839 573 | | | | |
| | Potential major project: Integration of district heating networks in South-Budapest (Csepel-Kispest-Kelenföld) | | | | |
| | | | | | |
| Information | | 016. (II. 29.) sets out the fund allocation plan of | | | |
| sources: | Environment and Energy Efficiency Operation Programme for 2016. Available at | | | | |

PA 5 budget: 994 820 180 EUR

PA 5 EU funding: 845 597 152 EUR

Territorial and Settlement Development OP

PRIORITY AXES:

- Priority axis 1: Development of regional economic environment and fostering employment
- Priority axis 2: Entrepreneurial, population retaining settlement development
- Priority axis 3: Low carbon transition with special attention to urban areas
- Priority axis 4: Development of local public services and social cooperation
- Priority axis 5: Human resources development at local and county levels, fostering employment and social cooperation
- Priority axis 6: Sustainable urban development in cities with county rights
- Priority axis 7: Community led local urban development

Territorial and Settlement Development OP

| <u> </u> | arbon transition with special atte | ntion to urban areas | | |
|---|---|-------------------------|--|--|
| Specific objectives: | Sustainable urban mobility Support to municipalities for energy efficiency improvements and renewable energy development | | | |
| Final beneficiaries: | Local municipalities and their companies and institutions | | | |
| Available budget: | Total budget: | € 648 132 024 | | |
| | EU funding: | € 550 912 221 | | |
| | Ratio of national contribution: | 15% | | |
| Priority axis 6: Susta | inable urban development in the c | ities with county right | | |
| | (employment, enterprise promotion, life quality, public services, etc.). The specific objectives include among others: sustainable urban mobility support to energy efficiency improvements and renewable energy development. The below financial date only concerns these two items, only. | | | |
| Final beneficiaries: | Local population using the public services | | | |
| Available budget: | Total budget: | € 308 694 697 | | |
| | EU funding: | € 262 390 492 | | |
| | Ratio of national contribution: | 15% | | |
| Other key | Implementation targets - sustainab | le urban mobility | | |
| information: | Number of new biker friendly settlements or parts of settlements: 21 Number of settlements implementing traffic safety measures: 80 Number of new traffic-calming zones: 29 New bike routes: 686 km | | | |
| Implementation targets - energy efficiency and renewables - 329.86 MW additional renewable energy production capacity - 376 318.77 tons of CO ₂ saving | | | | |
| Information | Government Decision No. 1005/2 | | | |
| sources: | Territorial and Settlement Development Operation Programme for 2016. Available at http://njt.hu/cgi_bin/njt_doc.cgi?docid=193688.319865 | | | |

PA 3 budget: 648 132 024 EUR

PA 3 EU funding: 550 912 221EUR

PA 6 budget: 308 694 697 EUR

PA 6 EU funding: 262 390 492EUR

Economic Development and Innovation OP

Example - 4.1.3-19 Development of solar systems by micro and small enterprises

| Applicant | Title of application | Location | Grant funding (HUF) | Intensity (%) | County |
|---------------------------|--|-------------|------------------------|------------------|-------------|
| FA-TIR Kft. | Napelem telepítése a Fa-Tir Kft-nél. | Soltvadkert | 2 244 000 | 100% | Bács-Kiskun |
| MA-VI GUMISZERVÍZ Kft. | Napelemmel a Ma-Vi Gumiszerviz Kft-nél | Baja | 3 00 000 | 100% | Bács-Kiskun |
| ••• | ••• | ••• | ••• | ••• | Bács-Kiskun |
| EURO MOBIL PLUSZ Kft. | Euro Mobil Plusz Kft napelem telepítés | Mezőberény | 3 000 000 | 100% | Békés |
| TREND-LAK BÚTOR Kft. | Napelemes rendszer telepítése a TREND-LAK BÚTOR Kft-nél | Gyula | 2 968 000 | 100% | Békés |
| ••• | ••• | ••• | ••• | ••• | Békés |
| BAJÚT Építőipari Kft. | Bajút Kft. napelemes fejlesztése | Kistelek | 2 600 000 | 100% | Csongrád |
| "HANKI-KER" Kft. | Környezettudatos vendégház - napelemes beruházás | Makó | 2 418 000 | 100% | Csongrád |
| ••• | ••• | ••• | ••• | ••• | Csongrád |

Other EU initiatives

Horizon 2020

- Nearly € 80 billion of funding available over 7 years (2014 to 2020)
- These pillars are called: Excellent Science; Industrial Leadership; Societal challenges
- Work Programmes for 2 or 3 year period

Connecting Europe Facility

- CEF investments fill the missing links in Europe's energy, transport and digital backbone
- The programme budget managed the INEA totals to € 27.4 billion out of € 30.4 billion in the following breakdown:
 - > € 22.4 billion for transport;
 - > € 4.7 billion for energy; and
 - > € 0.3 billion for telecom.

LIFE+

Environment and Climate action sub-programmes

Other EU initiatives - European Territorial Cooperation

INTERREG A - INTERREG Cross-boarder Cooperation (CBC)

For the counties (NUTS3) of SGP region (NUTS2) two relevant programmes

- INTERREG V-A Romania-Hungary
- INTERREG IPA CBC Hungary -Serbia

INTERREG B - Transnational Programmes

- INTERREG Central Europe
- INTERREG Danube Transnational Programme

INTERREG C - Interregional Programmes

Covers four interregional cooperation programmes:

INTERREG EUROPE

URBANACT

INTERACT

ESPON 2020

Joint Initiatives

| | ELENA | European | Local | Energy | Assistance | Programme |
|--|-------|----------|-------|--------|------------|-----------|
|--|-------|----------|-------|--------|------------|-----------|

- GEFF Green Economy Financing Facilities
- EFSI European Fund for Strategic Investments
- JESSICA Joint European Support for Sustainable Investment in

City Areas Programme

JEREMIE Joint European Resources for Micro to Medium

Enterprises

National initiatives

Warmth of Home Programme

- household equipment replacement
- window and door replacement
- heating system refurbishment
- complex energy efficiency reconstruction of apartment houses)

Panel Programme

Green Investment Scheme

Cooperation with private stakeholders

Thank you for your attention!
