

## WHAT WE DO

eCentral project encourages local and regional public authorities to adopt innovative technical and financial tools for (re)construction of public buildings according to nearly zero energy building (nZEB) standard.

## PROJECT PARTNERS

## PILOT ACTIONS

- 1 Sveta Nedelja, CROATIA
- 2 Budapest, HUNGARY
- 3 Velenje, SLOVENIA

## MAIN PROJECT OUTPUTS

Online energy performance certificate (EPC) tool with nZEB calculator for cost optimal packages of EE/RES measures for renovations of public buildings

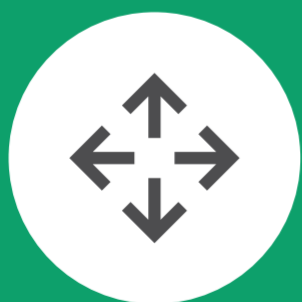

Online nZEB training programme with 4 modules about nZEB policies, technical tools for renovation of buildings, innovative financing and procurement techniques

Innovative financing models for (re)construction of public buildings according to nZEB (energy performance contracting, public private partnership and crowdfunding)

## POTENTIAL IDEAS FOR CAPITALIZATION

ROLLOUT OF PROJECT RESULTS to other Central European regions

UPGRADE OF THE LIVING EPC TOOL adding more features and reports

CREATION OF AN nZEB LEARNING PLATFORM based on nZEB living lab
