Benchmark: n=379 & Data weighting according to equal distribution across countries

BACKGROUND INFOS - SLOVAKIA

The Slovak Republic divides in 8 administrative districts (AD) - companies from 6 districts took part in the survey (except Trnava AD and Trenčín AD), covering 78.94% of the population.

This relatively broad survey shows that in each administrative district there are companies with their activity in NACE 26-28 or they are possible addressees of the project results.

In terms of size, 1,107 small, 196 medium-sized and 26 large enterprises were identified and invited to participate in the survey.
