

# INTEGRATED HEAVY RAIN RISK MANAGEMENT

HEAVY RAIN EVENTS can cause flooding at any location with only very short warning time. It is one of the most substantial natural hazards in Europe.

### WHAT WE DO

RAINMAN supports public authorities, cities and regions in managing and mitigating heavy rain risks. Innovative tools and methods will be developed and compiled in the RAINMAN toolbox.

Tools developed until 2020

Outputs planned until June 2020

Trainings offered to local, regional and international level

- PROJECT BUDGET 3,045,287 EURO
- ERDF FUNDING 2,488,510 EURO
- PROJECT DURATION 07.2017 - 06.2020

This transnational cooperation project is funded by Interreg CENTRAL EUROPE and aims to improve sustainable use of natural heritage.
