 FINAL PROJECT WEBINAR on March 22, 2022

 **Examples of urban green acupuncture
implementation in Liptovský Mikuláš**

 SALUTE4CE | PP10 | City of Liptovský Mikuláš, SLOVAKIA | Jana Kormaníková

MESTO PRE VŠETKÝCH

**LIPTOVSKÝ
MIKULÁŠ**

- **Pilot investments (I 4)**

1. Grandmama garden „Arboretum of native fruit trees“ at Demänovská Elementary School
2. Outdoor green vertical wall of The House of Culture
3. Revitalization of pedestrian zone - Park of The Square of peace (Pocket park)
4. Neighbourhood green space (inner-block) in Podbreziny residential area

School garden „Arboretum of native fruit trees“ at Demänovská Elementary School

Before: vacant and idle place in the school premises, grassy land

School garden „Arboretum of native fruit trees“ at Demänovská Elementary School - activities

The goal of the project - to build rustic Orchard (Grandmama garden)

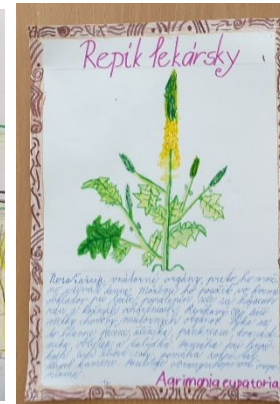

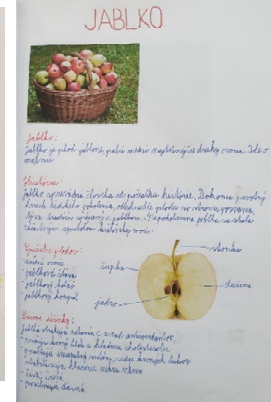

Pedagogical objectives of the project:

- development of children in perception of landscape as a source of livelihood - affective skills (problem of globalization and gradual forgetting of the importance of agricultural land)
- development of children based on contact with and learning from history - development of affective and cognitive skills (not everything old is bad and the wisdom of ancestors must be preserved)
- support for responsibility for your decision - responsibility for your own design and possibly for the realization of the garden (unlike computer games, a badly created garden cannot be deleted at the touch of a button)

Students prepared model Study of the Garden: fruit trees and bushes, ornamental plants, Medicinal herbs, Lawn with field flowers, house for insects, bird boxes, fences and lanes, sayings and superstitions.

Students (schoolchildren) proposals

Project documentation - architectural design

PILOT PRESENTATION

PP10 CITY OF LIPTOVSKÝ MIKULÁŠ - SLOVAKIA

SITE 2 - OUTDOOR GREEN VERTICAL WALL - PREPARATION PHASE

Before: grey concrete area, lack of green
