

# URBAN GREEN ACUPUNCTURE - THE WAY TO ENLARGE GREEN INFRASTRUCTURE IN URBAN AREAS

## Experience from SALUTE4CE

## Final project webinar

22 March 2022 | 10:00 - 15:45

### About Webinar

SALUTE4CE project offers a solution for cities which - due to their spatial and functional system - have problems with finding large areas for greenery. In SALUTE4CE a concept of URBAN GREEN ACUPUNCTURE has been elaborated meaning point injecting of greenery into an urban tissue. This activity will allow to achieve improvement of aesthetics values, life quality and adaptation to climate change by increasing of thermal comfort as well as strengthening of ecosystem services in an urban area. A sufficiently dense network of such spots is a condition of achieving these effects. This approach has been tested among 4 partners: Chorzów city (PL), Impulse Region, represented by Erfurt, Jena, Apolda and Weimar (GER), city of Alessandria (IT) and city of Liptovsky Mikulas (SK). Altogether 16 pilot investments have been implemented in these cities.

SALUTE4CE was started on 1 April 2019, therefore it will be a great pleasure for us to present to you after three years the results of our work. The Webinar will give an opportunity to discuss the present problems in land use including management of greenery in functional urban areas.

SALUTE4CE has been implemented in the framework of INTERREG Programme for Central Europe. Institute for Ecology of Industrial Areas in Katowice is the project leader. The project consortium has engaged 10 partners from 5 countries: Czech Republic, Germany, Italy, Poland and Slovakia.

More information on the project can be found on the website:

<https://www.interreg-central.eu/Content.Node/SALUTE4CE.html>

**CHORZÓW**

## For whom?

We invite Polish and foreign representatives of public regional and local authorities, architects, urban planners, land owners, investors, companies dealing with remediation and re-cultivation of soils and financing institutions as well as students.

## Date and venue

The conference will be on-line, through ZOOM platform. The link for the Webinar together with the meeting agenda will be sent to these who fill the registration form.

## Language

The Webinar will be conducted in Polish and English. Simultaneous translation will be provided.

## Registration

Participation in the Webinar will be possible after the earlier registration not later than on **15 March 2022**. Register now: <https://forms.gle/bmgmZ8WTjLTvBUuE9>

# Agenda

## Part I

**Tuesday, 22 March 2022. 10:00 - 15:45**

### Opening session

**Moderator: Piotr Cofałka, Deputy Director for Research and Development, IETU**

- |               |  |
|---------------|--|
| 10:00 - 10:20 | <b>Welcome of participants</b><br>Piotr Cofałka, Deputy Director for Research and Development, IETU, Poland<br>Andrzej Kotala, Mayor of the City of Chorzów, Poland    |
| 10:20 - 10:40 | <b>Integrated environmental management supported by the Interreg CENTRAL EUROPE Programme</b><br>Christophe Ebermann, representative of the Joint Secretariat, Austria |
| 10:40 - 11:00 | <b>European Commission, DG Environment representative</b><br>Benjamin Caspar, DG Environment, European Commission, Brussels  |
| 11:00 - 11:20 | <b>SALUTE4CE- project framework, objectives and results</b><br>dr Anna Starzewska-Sikorska, SALUTE4CE project co-ordinator, IETU, Poland                               |

11:20 - 11:30 **Break**

### SESSION I - Projects related to urban green infrastructure towards of the European policy

**Moderator: dr Anna Starzewska-Sikorska, SALUTE4CE project co-ordinator, IETU, Poland**

- |               |  |
|---------------|--|
| 11:30 - 11:45 | <b>Support of cities' transformation towards climate resistance and neutrality</b><br>Wojciech Augustowski, Ministry of Environment and Climate, Poland                                |
| 11:45 - 12:00 | <b>Mikołów for Climate - implementation of investments in the field of blue and green infrastructure in the City</b><br>Ewelina Roszkowska, Silesian Botanical Garden, Mikołów, Poland |

12:00 - 12:10 **Q&A**

12:10 - 13:10 **Break**

## Part II

### SESSION II - SOLUTIONS IN SALUTE4CE - URBAN GREEN ACUPUNCTURE IN FUNCTIONAL URBAN AREAS

**Moderator: dr eng. arch. Justyna Gorgoń, IETU, Poland**

13:10 - 13:30	<b>Implementation of UEA: An overview of the action planning concept and implementation framework</b> dr. Jessica Hemingway, dr. Juliane Mathey, dr Peter Wirth, IOER, Germany
13:30 - 13:40	<b>Pilot Actions - from the idea to implementation</b> dr eng. arch. Justyna Gorgoń, IETU, Poland
13:40 - 14:00	<b>Examples of urban green acupuncture implementation in Chorzów</b> Anna Kotyś/Agata Beryt, City of Chorzów, Poland
14:00 - 14:20	<b>Examples of urban green acupuncture implementation in Erfurt, Jena, Apolda and Weimar</b> Christian Bachmann, Impulse Region, Germany
14:20 - 14:40	<b>Examples of urban green acupuncture implementation in Alessandria</b> Jody Abate, City of Alessandria, Italy
14:40 - 15:00	<b>Examples of urban green acupuncture implementation in Liptovsky Mikulas</b> Jana Kormanikova, City of Liptovsky Mikulas, Slovakia
15:00 - 15:15	<b>Education component in SALUTE4CE, - e-learning course and project Handbook</b> dr Barbara Vojvodikova, IURS, Czech Republic
15:15 - 15:45	<b>Q&amp;A</b>
15:45	<b>Final remarks and closure of the Webinar</b>
