**IMPROVING THE REGIONAL
INTEGRATION OF SMART
SPECIALISATION**

SMART_watch is a cooperation platform between key participants of the innovation sectors in Central Europe.

Within the SMART_watch, we want to develop and share good practices as well as learn from other regions that carry out similar activities in the area of Central Europe (CE). [Learn more](#)

Want to learn more about the Regional Observatories?

Join us in Turin for a dedicated workshop for the representatives of Regional Observatories, which aims to develop a strategy for the industry network! Three days of intensive discussions,

Company of experienced professionals:

We can't forget about the study visits. This time they will focus on the following topics: life-science, food and agriculture. We will be visiting Environment Park and the Energy Center of the Polytechnic of Turin, where we will talk about collaborating with the businesses that focus on environmental sustainability as a development key for new business opportunities and developing new entrepreneurial activities in the energy sector.

After that, we are planning to visit the University of Gastronomic Sciences, where we will learn about how to create an international research and education center for those working on renewing farming methods, protecting biodiversity, and building an organic relationship between gastronomy and agricultural science.

Do not forget about our project online tools - the Competence Map and the Benchmarking tool. You can test them at regionalobservatories.tech

All you have to do is register and you can use all available data!

RECOMMENDED NEWS AND EVENTS

**[Better Monitoring,
Evaluating, and
Designing RIS3](#)**

**[Modernisation of the Food
Industry through Industry
4.0 and Digitisation](#)**

We are pleased to invite you to

thematic workshop on 'Better Designing and Monitoring Regional Smart Specialisation Strategies (RIS3)' on 25 September 2019.

The thematic workshop will allow regions to share their experience on monitoring, evaluating, and designing RIS3. It is an opportunity to discuss and create synergies through sharing experiences and good practices on RIS3.

It is an opportunity to reflect on new policy trends in monitoring, evaluating, and designing RIS3. An opportunity to meet and network with experts in RIS3 and learn about the latest tools in monitoring, evaluating, and designing RIS3.

Cooperation in Smart Specialisation on the Modernisation of the Food Industry through Industry 4.0 and Digitisation" with particular focus on developing transdisciplinary competences, skills and demonstration projects which will be held on 19-20 September 2019 in Budapest, Hungary.

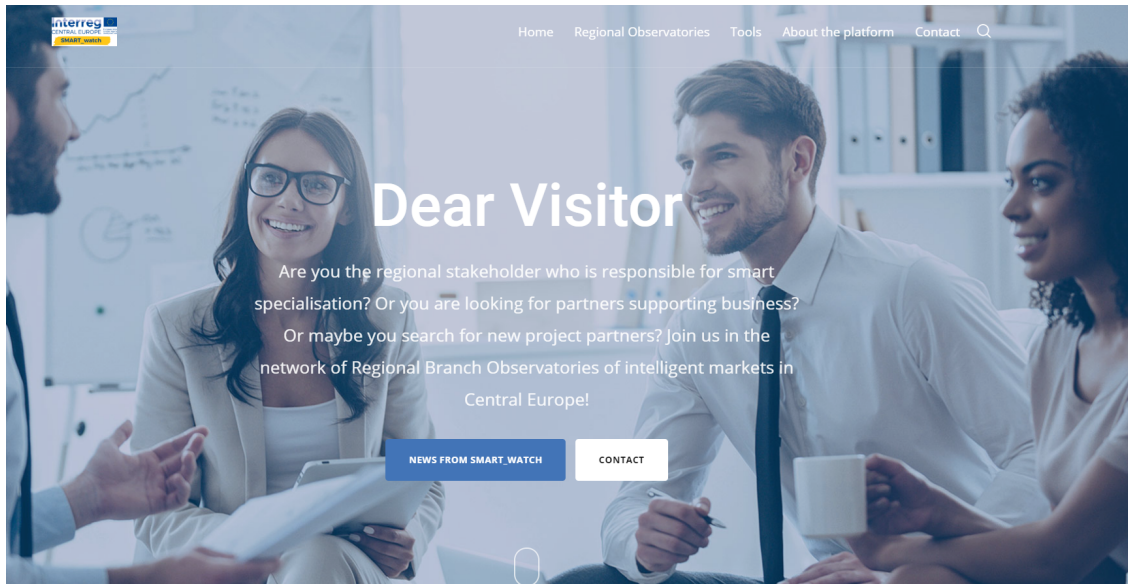

The event wants to create a professional forum for regional actors being active in food processing, in development of Industry 4.0, ICT and advanced manufacturing solutions for a dialogue on international transdisciplinary RDI cooperation for application of Industry 4.0 and digital solutions in food processing. There will be also a presentation and discussion of the common challenges faced and opportunities in ensuring skilled work force and application of transdisciplinary competences through training and education approaches and programs.
