ENGAGEMENT AND SOCIAL MIGRANTS  
ENTREPRENEURSHIP INITIATIVES  
IN THE CENTRAL EUROPE

# TASKFORCOME IN NUMBERS

# WHAT WE DO

Community Social HUBs and engagement of local stakeholders

Education, Training and Supporting tools for migrant and social entrepreneurship

Training Session Actions for entrepreneurial skills

Pilot Sessions of one-stop-shops for entrepreneurial support schemes

Action Plans and Blueprint for policy advancement

TASKFORCOME addresses 2 of the major challenges of the EU and its member states: the socio-economic integration of migrants and the potential of social innovation for social and economic development.

*We aim to develop ecosystems for inclusion and social innovation, where key actors will work in new ways to provide services for citizens and possibilities for entrepreneurial business, together with universities, NGOs, public bodies and citizens, thus creating favourable conditions for innovation and development.*

The outputs of our project will include: learning tools, training packages, one-stop-shops piloted and strategies targeting migrants and entrepreneurs, enabling them to act as drivers of social innovation in CE.

*Our main objective is to create Local Action Plans and Transnational Blueprint for the development of migrant and social entrepreneurship in involved regions. We will engage key actors in order to improve the skills of migrant and social entrepreneurs, develop one-stop-shop of targeted support for migrant and social entrepreneurs and elaborate policy frameworks.*
