

D.T1.1.5 NETWORKING & FOLLOW-UP WORKSHOP TO TRANSFER BEST PRACTICES - ISRAEL

D.C. 4.2 Report

05 2022

1. Name of the event, implementing date and place

Study visit ISRAEL has been organized by CREA to get in touch with external expertise and promote the results obtained within Transfarm4.0.

2. Number and types of participants/target groups

Several companies and start-ups were visited (SATURAS, TEVATRONIC, CROPX, FARMMENTOR, Metabolich Insight, Viridix, Fruit Spec.), Netafim, Manna, Fieldintech, ISRAEL Export Institute

3. Topics tackled and links to deliverables, outputs

The study visit has been very useful because we had the opportunity to interact with stakeholders (SH) with different backgrounds and to understand how the country is working in the precision farming field. Several companies have been visited gaining an important know-how of technologies. According to the SH the discussion had been more oriented toward the state of art of technology.

4. Expected effects and follow up

The study visit has been an opportunity to networking with many experts in the area of precision farming. Partners had the opportunity to learn about the Israel ecosystem for innovation and collect information and contacts for future collaborations.

Annexes: e.g. agenda of the event, pictures, media coverage web- links etc

In the report 114 agenda and pictures of the study visit are showed.
