## Transational Roadmap

2019 - 2025

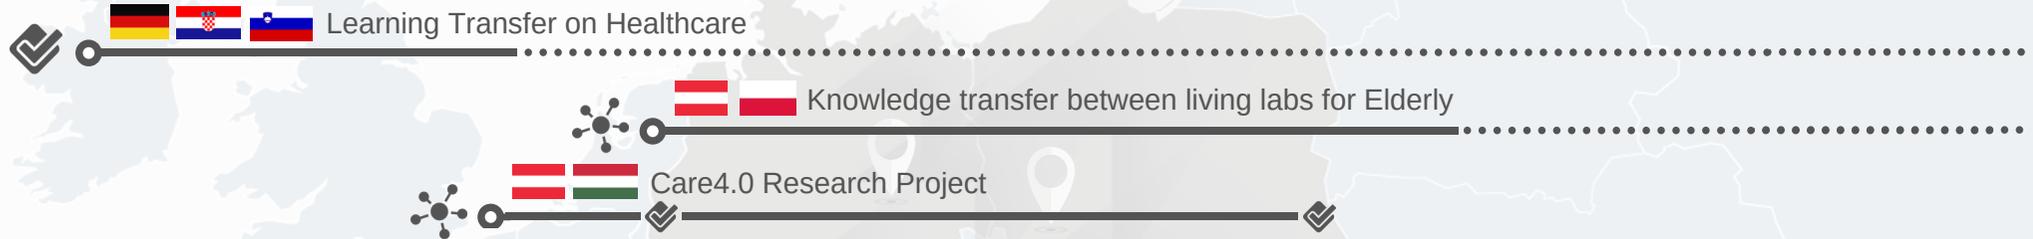

THINK TANK

TRANSNATIONAL TASK FORCES

CONSOLIDATE & IMPROVE COMPETENCES

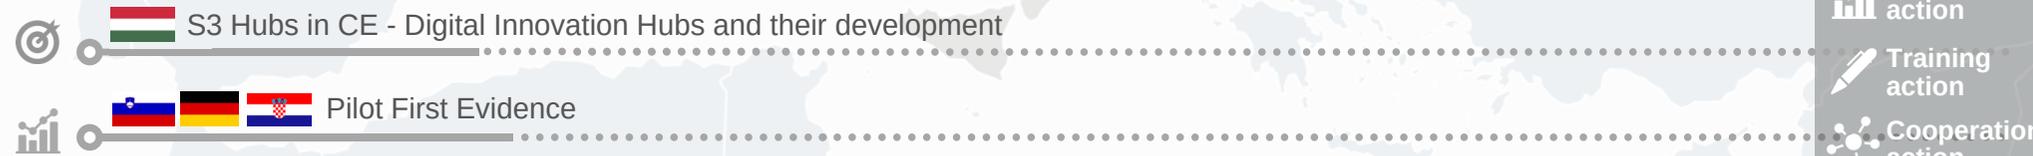

IMPROVE INNOVATION POTENTIAL

FACILITATE MARKET ENTRY

FACILITATE ACCESS TO SOLUTIONS

- Event
- Strategic action
- Market action
- Training action
- Cooperation action

The DL4CE Think Tank is an **innovation-oriented cooperation structure** within the CE area, covering a long-term perspective, which strives to contribute to future policy improvements in the field of **digital health**. The Think Tank aims at exploiting the knowledge gained in digitalLIFE4CE and anchor the evidences of the CEDHES and the subsequent selection of long-term priorities done by the CE Task Force, to generate a coordinated effort to improve the CE's ability to deliver digital health innovation opportunities (products, services, policies, solutions) to the citizens of this area.

## CONSOLIDATE &amp; IMPROVE COMPETENCES

**Learning Transfer on Healthcare - GFL, STEP-RI, TPLJ, VFG** - Mutual learning for knowledge transfer on the healthcare systems in Germany, Croatia and Slovenia

**Knowledge transfer between living labs for Elderly - FHB & WPT** - A virtual and physical meeting place for stakeholders from different sectors in order to identify, test and implement of products, services and solution dedicated to elderly people

**Care4.0 Research Project - FHB & PBN** - The project aims to establish inter-institutional cooperation and digital skills enhancement; new and innovative solutions and competencies will be tested and developed in the cross-border area of Austria and Hungary

## IMPROVE INNOVATION POTENTIAL

**Collaboration between Competence Centers - FHB & TS4.0** - The projects aims at exploring the possibility of using the competences on digital health for enriching the Austrian Competence Centre training courses

**Implementation of centralised information and organisation system in KBC Rijeka - GFL, STEP-RI, VFG** - Suggestion of a new centralized informatization system that will facilitate work processes within KBC Rijeka

**Business plan for Lab financing - FHB, TPLJ, WPT** - Develop a sustainable business model and plan for its XR Lab based on learning from best practices established by neighbouring Labs

**Explore collaboration for Digital Innovation Hubs - PBN & TS4.0** - Cooperation can be established between the partners and also a membership can be prepared and/or finalized within the European DIH network

## FACILITATE MARKET ENTRY

**TrentinoSalute4.0 market entry - STEP-RI & TS4.0** - Definition of a feasible business plan for TS4.0, built up on the case study of a German SME

**Transnational cooperation network for digital health solutions - GFL, STEP-RI, TPLJ, VFG** - Trilateral Market Entry Network between Saxony, Rijeka and Ljubljana to enable and facilitate cross border market entry in digital healthcare

## FACILITATE ACCESS TO SOLUTION

**S3 Hubs in CE - Digital Innovation Hubs and their development - PBN** - This new transfer project aims to allow partners of the new CE project, but also relevant actors, of the DL4CE project to improve their knowledge and gather access to the state-of-the-art digital solutions available.

**Pilot First Evidence - GFL, STEP-RI, VFG** - Development and establishment of a new funding programme for innovative Start Ups in Saxony to enter the statutory healthcare insurance more easily.
