35 NEW PROJECTS TAKING COOPERATION FORWARD

Transnational Interreg cooperation in central Europe turns 20 in 2017. Our funding and our support are for European cooperation what yeast is for baking: we are the tiny but important ingredient that lets ideas grow into jointly developed, tested and accepted solutions.

Through hundreds of successful projects, transnational cooperation has helped great ideas come true beyond borders since 1997. By 2020 we aim to fund around 120 new cooperation projects that bring together professionals across central Europe to work on shared regional challenges. With this wall calendar we introduce you to the first 35 of these projects that were selected in 2016. The transnational partnerships will jointly work on topics related to innovation, low carbon, environment, culture, or transport.

A second tranche of Interreg CENTRAL EUROPE projects will be approved as soon as March 2017 before we will launch a third call for proposals in autumn 2017.
