

BREAKFAST MEETING CUSTOMISED TO THE ELDERLY

Deliverable D.C.6.1

01/2021

At the beginning of 2021 (January 17.) the niCE-life project was publicly introduced to a group of frail elders already known by the municipality and by the LHA of Bologna. The aim of the meeting was to illustrate to the elders the benefits of having computer skills and being able to use digital technologies, in order to keep themselves informed in an independent way, and also to keep in touch with their peers and friends even in case of illnesses, convalescence, isolation or even vacation. Only 14 people were able to participate due to the restrictions related to the pandemic that in Italy forbid to gather until June 2021. We were able though to extend the recruitment with word of mouth.
